(U) For the further information of Washington Field and  
Legat London, on 06/05/03, the U.S. Department of State (USDS),  
Bureau of Intelligence and Research (INR) provided FBI  
Headquarters with 17 pages of documents in the French and Italian  
languages that were received by two American Embassy officials.  
The USDS also provided English language translations of the  
documents. The documents purportedly consisted of diplomatic  
notes between the Iraqi Embassy to the Holy See and the Embassy  
of Niger to Rome, internal communications within the Government  
of Niger (GON), telexes between the GON and the Embassy, and an  
accord for uranium transaction between the two Governments.

(U) ~~(S)~~ On 06/09/03, Legat interviewed the two Political  
Officers at the Embassy who met with a journalist. According to  
the officers, approximately 10/8/02, the Editor of Panorama  
Magazine contacted the American Embassy and advised that a  
Panorama journalist in Milan, [redacted] had information  
to provide. The following day, [redacted] visited the Embassy and  
met with the two officers. [redacted] pulled out a folder that  
held numerous who she claimed came from a "contact" who had  
provided reliable information to her in the past. She was  
unwilling to provide the name of the "contact." The "contact"  
had requested 15,000 Euro for the information. [redacted] made  
the documents available for photocopying. She also requested  
that the Embassy advise of the accuracy to the contents, but the  
officers declined. Additionally, she declined their request to  
contact Italian authorities. Copies of the photocopied documents  
were passed [redacted] and, approximately 10/15/02, were sent  
via secure facsimile to USDS. The facsimile consisted of 18  
pages of information. Approximately one-week following the  
meeting, an officer telephoned [redacted] and re-stated the above  
two points.

~~(S)~~ (U) As Washington Field may already be aware, the 06/09/03 issue of the Washington Post, reported that a National Intelligence Estimate (NIE) was prepared concerning the Iraqi WMD threat. The NIE stated that "Iraq had WMD" and Hussein "was continuing to improve his WMD capabilities, that he was hiding these from the world and that there were large, unaccounted-for stockpiles." The CD does not know if the estimate contained references to information from the above documents being present in the NIE.

~~(S)~~ (U) As London may or may not already be aware, British Prime Minister Tony Blair has made reference in the media to Iraq's possession of WMD material. The reference reportedly came
